## Special Issue Introduction:

The gut microbiome, a complex community of microorganisms residing in the gastrointestinal tract, plays a pivotal role in maintaining human health and well-being. Over recent years, research has highlighted the significant impact of the gut microbiome on various aspects of aging and age-related health conditions. This Special Issue aims to provide a comprehensive platform for researchers and experts to explore the intricate relationship between the gut microbiome and aging, shedding light on its potential implications for age-related health outcomes.

The topics that will be explored in this Special Issue include, but are not limited to:

1. Microbiome Diversity and Aging;
  2. Gut-Brain Axis and Cognitive Aging;
  3. Immunosenescence and Microbiome;
  4. Metabolic Health and Gut Microbiota;
  5. Longevity and Microbial Signatures;
- etc.*

**Submission Deadline: 30 Apr 2024**

## Journal Introduction:

Microbiome Research Reports (MRR) is an international peer-reviewed, open access journal. The overall aim of MRR is to publish high quality researches from scientists with a common interest in microbiome/microbiota research in all its multidisciplinary aspects. The journal is founded by OAE Publishing Inc., under the guidance of our Editor-in-Chief Professor Marco Ventura (University of Parma, Italy). MRR was officially launched on July 26 2021. Looking forward to your attention and cooperation! Welcome to contact the editorial office for details, [editorialoffice@mrrjournal.net](mailto:editorialoffice@mrrjournal.net).
